Spyro Gyra plays like 'champs'

by Mike McNary

Spyro Gyra percussionist Gerard Velez pounds out the beat on one of his cymbals during the group's 7 p.m. show Saturday at Kobacker Hall.

Reagan earns early support, p.6

Reagan, in a nationally broadcast victory speech, explains the military strike, and the United States has direct, precise and irrevocable evidence that Libyan leader Moammar Khadafi had ordered armed Anti-American attacks, including the bombing of a discotheque frequented by servicemen in West Ber- gen. However, Reagan also stated that five Libyans have been arrested.

"When our citizens are abused or attacked anywhere in the world, we will respond in self-defense," Reagan said.

In an unmistakable warning to Kha- dafi, he said: "If necessary, we will act again.

Knowledgeable officials said Khada- fi's headquarters was one target of the raid. Reagan himself described the attacks as "concentrated and carefully targeted" to minimize casualties among U.S. personnel and to avoid collateral damage.

Weinberger said the attacks were meant against five targets near Tripoli and Benghazi using 40 F-111 bomb- ers from bases in England, France, Italy and Greece.

Rep. Larry Speakman described the targets as "specifically identified" and those "under command and control systems, intellig- ence, communications, logistics and training facilities."

Secretary of State George Shultz, acting with Weinberger, noted that because of Russia's "reform" President Reagan said the Soviet Union would be told of the operation as it was taking place and was assured it was "in no way directed at the Soviet Union."

The United Nations responded by demanding an explanation of the attack.

"All that has ever happened to us, we have done to Libya," Reagan said. "We are not going to be held hostage to threats from Libya, no matter what happens."

Reagan added that if Libya were to retaliate for the strike, "the United States will be ready."

Undersecretary of State William Volpe, who announced the raid, said the United States had "great respect for the Universal and the Geneva Conventions."

"We are not going to be held hostage to threats from Libya, no matter what happens," Reagan said.

The raid, which began about 9:45 a.m. yesterday, lasted about 15 minutes after which the United States had "great respect for the Universal and the Geneva Conventions."

"We are not going to be held hostage to threats from Libya, no matter what happens," Reagan said.

"We are not going to be held hostage to threats from Libya, no matter what happens," Reagan said.
History's no trivial matter

by Mike and Gillian Thomas

Did you know that the University of Toledo was built over a well, an old hotel that was turned into campus housing? As you walk around the town's cemetery, you can almost feel the history that is still here, much like the town that it was. 

At one time, the state considered the town to be a park, lots of farmland and a body of water. By the time the town was founded, the state considered the town to be a park. Lots of farmland and a body of water.

The town's cemetery? At the time, the state considered the town to be a park, lots of farmland and a body of water. By the time the town was founded, the state considered the town to be a park. Lots of farmland and a body of water.

The BG News is your campus forum.

Letter: Why don't you want tax system?

by Berke Breathed

Why don't they want it? Because the majority of Americans believe that a fair tax system is something that only applies to the rich. The middle class believes that they are the ones who pay the most taxes, and that's not true. The working poor pay more taxes than the rich. 

But if you ask them if other Americans believe that the working poor pay more taxes, they will say yes. That's because they are more educated and have more access to information. 

In its own way, it satisfies them because it lets people think that they are doing something good for the poor. They believe that the rich are getting away with something, and the poor are paying for it. And that's why the present system is so popular, even though it is not fair.

The result is that the bills still don't pass. The people in Congress are still divided, and they continue to pass the same bills over and over again. The rich continue to get away with paying less than they should, and the poor continue to pay more than they should.
McCoy, Slater win election

by Carollee Lauper

With a margin of 14 votes, Ken McCoy and Jeff Slater were elected president and vice president, respectively, of the Undergraduate Student Government.

The McCoy/Slater team secured 878 of the 1370 total votes cast last Wednesday and Thursday. If you did not vote, please stay involved with USG. 

Michael McFee, secretary of USG, said to candidates Friday before announcing winners. Candidates Dave Lenz and Jeff Fix who finished a close second in last year's election, had planned to remain active in USG "for or too.

President-elect McCoy said she would consider those who ran for executive positions when they applied.

"The candidates were good people with good experience," she said.

Rand Fix, vice president of USG and chair of the elections and opposition board, said last year's one-day election resulted in 1100 votes being cast. This year's total of 1370 votes means more than 1400 students were eligible to vote.

"Fourteen votes is 14 votes when you can't believe a few votes," she said over and over again.

President votes in 14 votes and it only takes one to win," Fix said earlier.

"The McCoy/Slater platform continued to set the student body on track. McCoy plans to lobby to promote education at BGSU and bring student representatives to the state legislature. Slater will be a member of the new board of trustees.

McCoy said the weather could have been a contributing factor in not hitting the 2000 mark. She said she also realized the importance of USG had increased.

Dan Miller, advisor to USG, said votes look about 12 hours to tabulate because each ballot was triple checked.

The McCoy/Slater platform rested on USG involvement in local, state and national issues.

 McCoy plans to help to protect federal financial aid to students because most forms of aid are in danger of being cut or eliminated, including $144 million in federal and state aid. McCoy plans also to help students become more involved in campus concerts.

"Then through the end of the year and through summer I will work with Slater to get the student voice heard and let legislators know education is a high priority," McCoy said.

"I can't believe a few votes," she said over and over again.

"Fourteen votes is 14 votes and it only takes one to win," Fix said earlier.

McCoy will be in office April 28. Slater will be in office April 30.

"I believe the win will be a great start for the McCoy/Slater team," said Slater.

With a margin of 14 votes, Kel McCoy was elected sophomore class president. McCoy plans to lobby to promote education at BGSU and bring student representatives to the state legislature. Slater will be a member of the new board of trustees.

McCoy said the weather could have been a contributing factor in not hitting the 2000 mark. She said she also realized the importance of USG had increased.

"I believe the win will be a great start for the McCoy/Slater team," said Slater.

UPCOMING UAO EVENTS

On April 18, 1986, JOHN STOCKWELL, a former member of the CIA, will speak on the Central Intelligence Agency and the SECRET WARS OF THE CIA. Mr. Stockwell has appeared on 60 Minutes, NBC Magazine and in many documentaries. The lecture is free and open to the public. It will be held at 8:00 p.m. in the Grand Ballroom.

Do you enjoy the great outdoors, fresh air and wet shoes? If you do then go fishing on the New River in West Virginia. The price is $55 per person and includes transportation, the raft trip, lodging, and Saturday's lunch. A $15 non-refundable deposit is required when you sign up. Sign up in the UAO Office, 3rd floor, University Union.

Would you like to have breakfast with President Olscamp? UAO is sponsoring another Breakfast with Dr. Paul Olscamp April 24 at 8:00 a.m. in Berries cafeteria, Harshman Quad. Students should fill out one of the coupons found in the BG News and in the UAO Office. 14 students will be picked by lottery from the returned coupons. You may enter as often as you wish. Those who participated in the first breakfast are ineligible.

Wish. Those who participated in the first breakfast are ineligible. All entries must be turned in to the UAO Office, 3rd floor, University Union, by 5:00 p.m. April 21.

Now, choose the eye color that's just right for you.

Ask us about NaturalTint™ soft contact lenses by Bausch & Lomb.

When you want to change your natural eye color, lighten up your eyes with NaturalTint soft contact lenses. Available in crystal blue, royal blue, jade and sable. They'll help you look your best while improving your vision. Of course, the only way to find out how good you'll look is to try on a pair of NaturalTint lenses for yourself. Call us today for an appointment.

Spryro Gyra

Spryro left the stage, encouraging the band to return for an encore. But while the fans displayed their enthusiasm for the music, it could not compare to the enthusiasm of the performers. In the truest sense of the word, the band members got “into” their music. Saturday, they proved it.

SICSCIC

“I think everyone appreciates the fine tradition established by SICSCIC,” he said. “It’s not like we’re doing a lot of fund-raising events or anything—it’s just personal concern,” he said.

The method of taping red and black signs on various campus buildings has been a tradition for the group. However, he said he has considered using other methods of communication.

“We have tried traditional routes, but our signs are usually something in support of the groups,” Weiss said. “They are really the only way to reach the students and faculty.”

The group will also continue to use their signs in the hopes that other groups will consider using them.

“We literally get inundated with phone calls from people requesting signs,” Weiss said. “We only give the signs out after the event is scheduled. We try not to sell the signs. We want to keep them free to the students.”

The group is promoting the events of other groups on campus.

“I think you do something different, you’re not doing the same thing,” Weiss said.

The group will continue to support other groups on campus.

SICSCIC
Trustees approve 33 promotions

by Patricia Metter
staff reporter

The Board of Trustees approved promotions for 33 University faculty members Friday.

All of them were granted the title of professor or were appointed to associate professor with tenure; two were appointed to associate professor; and nine received full professorships.

All but one of the nine trustees approved the promotions, with Trustee Richard Newlove dissenting because he was "personally opposed to granting insubstantial professorships.

In his report to the trustees, Chancellor said three professors have been invited to the University as part of the Distinguished Visiting Professor Program. While their contractual commitments are pending, Olscamp said the professors — Kenneth Kaneshiro of the University of Hawaii, Jan Halicka of the Slovak Academy of Sciences in Bratislava, and Manfred Creutz of the New South Wales State Conservatorium of Music in Australia — will support the University's new emphasis on sciences, mathematics, statistics and psychology.

In his report of the 75th Anniversary Fund, Olscamp said that Owens-Illinois has pledged $225,000 over a three-year period to fund a permanent Owens-Illinois Professorship in the College of Business.

The new endowment will enable the College of Business Administration to attract some of the nation's top business scholars, the president said.

The gift raises the 75th Anniversary Fund to $11,950,000, about $15 million short of the $12.5 million goal.

"It was like a joke to them. I wasn't a person, I was just an object to them. They kept saying I was being a baby about the whole thing," she testified.

She said that although the shock was alone, she had "been amused" by the rape.

"It was like a joke to them. I wasn't a person, I was just an object to them. They kept saying I was being a baby about the whole thing," she testified.

Election

Three were elected with the number of votes ranging from 513 to 350. Representatives, listed in order by number of votes, are:

Alexis Helmick, John Graham, and Todd Trempert. Christopher Goolsby, Tim Peterson, Donald Helmick, Michael Tremper, Christopher Schub, John Graham, and Brian Moore.

Marcos supporters riot

WASHINGTON (AP) - President Reagan has proposed cutting $100 million in military aid to Nicaragua in the face of continued terrorist attacks in the United States, acting to "pre-emptive说道" America's defense in the war on terrorism, carried out a strategy of providing a defensive aid package to combat the enemy. This moment.

The White House was supportive of President Reagan's action was "what everyone" with provisions of the War Powers Act. President Reagan's action was "what everyone" with provisions of the War Powers Act. The White House was supportive of President Reagan's action was "what everyone" with provisions of the War Powers Act.

A police official claimed there was shooting from the crowd, but the official police report did not mention any guns in the presence of demonstrators. The report also noted a group of military personnel in the area. Police said during an approximately two-hour-long riot for congressional leaders and other presidential officials, law-makers were in agreement that only has been seen as necessary against Libya.

Vital shuttle piece recovered

Cape Canaveral, Fla. — A salvage ship that found the Challenger rocket's main engine before it sank to the bottom of the Atlantic Ocean has recovered the shuttle's computer and power control module.

A statement by commissioner William Kingsbury said, "One of the two sections of the module was recovered and that it was from the joint that was built at the right end of the booster. The other section, causing the accident, was found out at sea."

"A burnt out area of the joint and one of the putty eye is evident in this photo," the statement said. It is seen on the photo, the bottom part of the joint, has not been etched and it is located in the same area.

Investigators have said the accident that killed seven astronauts was caused by a failure in this joint. But they don't know exactly what it failed, or even if they will be able to put the joint containing the part they found.

Experts believe a leak in the joint allowed flame to escape, eventually burning the booster from the inside out. That burned the last joint and caused it to fail, they said.

"The recovery was announced early by the presidential press

Stalin's daughter returns to the West

MOSCOW (AP) — Josef Stalin's daughter, who defected 15 years ago but then returned, said yesterday that she had not been happy for a single day, and wondered whether she will ever find a place to live in the West.

A prominent British writer who has written of Stalin's daughter said "Having Stalin for your dear dad is a lot in imagery, and he doubted Svetlana Alliluyeva would find happiness in the West.

Miss Alliluyeva, 38, told The Times newspaper by telephone that she and her American—born daughter, Olga Peters, had permission anywhere. They were given an American citizen who defected and then went to leave the country and she had doubted Svetlana Alliluyeva would ever find a place to live in the West.

Miss Alliluyeva, 54, had earlier said yesterday that she would return this week at a Soviet rocket mission. She stated that she attended for 29 months before her mother brought her to the Soviet Union in October 1964.

After her return, Miss Alliluyeva defected to India in 1967 and spent most of her time in the United States. She was accompanied by American William Woody Peters, her third hus-

Dr. Charles Dibeneoet, Jr., State Professor of Biology at the University of Toledo, said yesterday that he had not yet seen any scientific evidence that a single joint failed.

"The slighty radioactive material he found on the nozzle of the joint seemed to have been built features the following: • Hydro Spa Whirlpool • Sun Lamps • Shower Massage and interaction with other chemicals.
Motive still unknown in New York bombing

NEW YORK (AP) — The unattended explosion that killed Paul Castellano, the No. 2 man in the city's organized crime family in a sign that mob war is raging as Mafia leadership descends to younger, less-experienced mobsters, the head of the city's police bomb squad said yesterday.

"There's nothing concrete," said Richard Hammar, New York City chief of detectives. "There's nothing concrete." He said that after the explosion, which occurred on New Year's Eve, "nothing has been ruled out." The explosion was described as a bomb, and the bomb squad was at the scene to investigate.

The blast that killed DeCicco occurred in the Brooklyn borough of New York City on January 19, 1985. DeCicco was a prominent figure in the Gambino family, which had been involved in significant criminal activity in the city for many years. The bombing was one of several high-profile incidents that led to the rise of a new generation of mobsters.

The bombing was one of several high-profile incidents that led to the rise of a new generation of mobsters. The FBI and other law enforcement agencies have been investigating the case for many years, but the motive for the explosion remains unknown.

JOHN STOCKWELL

Secret Wars of the CIA

John Stockwell, the highest ranking CIA official to publicly criticize the Agency, will speak April 16 at 8:00 p.m. in the Grand Ballroom.

Mr. Stockwell has appeared on 60 Minutes, NBC Magazine, Good Morning, America and on the documentaries On Company Business and The CIA Case Officer.

Mr. Stockwell resigned from the CIA in 1977 after 13 years of service because he did not agree with the CIA's policies.

The Lecture is FREE & open to the public.
Last year, the team took Boston to the limit. This year, they faced an opponent that could play a Cheltenham rule and throw in a snowstorm.

To give the Falcons a chance to score, for example:

Here's a lineup that was on every game at home on Tuesday night, January 24:

1. John Krebs
2. Mary Kay Bryan
3. Sue Cansfield
4. Kristine Tinnemeyer
5. Mark Johnston
6. Ron Austen
7. Kevin Johnston

And that's the lineup that wound up winning the game.

But I'm sure the Falcons could have played better against even their most formidable opponents.

The MAC schedule is a long haul, and it's important to keep things in perspective. It's easy to get caught up in the momentary highs and lows of a season, but it's important to remember that the overall picture is what matters in the end.

The Falcons have a long road ahead, but they're determined to keep pushing forward. They know that every game is an opportunity to learn and grow, and they're excited to see what the future holds.

Do not hallucinate.
Nicklaus does "Masterful" job

In Wilson's Words

by Phillip B. Wilson

Sunday was an eventful day in the world of sports. It was the opening day of the regular season for the National Basketball Association. It was also a day of gold. The greatest golfer of all time took a celebrated walk through the front of Georgia last weekend and in one of the most fitting fashion I have ever seen any sport, the Golden Bear won the Golden Anniversary of the Masters.

Nicklaus' long-time favorite and most respected talent won the 50th Masters held each year at Augusta National Golf Club at a time when most people figured he never had a chance.

The man who has won over $1 million on the tour in 116 starts and has played a role in the hearts of most golf fans, most people thought he was about to lose his moment in the spotlight of the sport. But it makes him very easy that he can re-awaken us to time to time when what he once was.

I am not a golfing enthusiast but once some of our older followers, the greatest in the world of sports, especially when you're dealing with the best. But it was the way he went that made the news as exciting.

He finished six of the last 10 holes, ranked 13th, and left his name enshrined in history, sports history as it was approached the final hole.

He later said to USA Today, "That may be the finest round I have ever had," at least the one he fired that day.

I don't think anyone will argue with you, Jack. Not to be picky, but if Nicklaus had finished first on the other day, his boast should have been Nicklaus, says, "I am the prince of the 300-yarders and I can get my tee shots farther than you." From his duels with Arnold Palmer in the early years of his reign to the more recent battles for the spotlight of the sport, it has made him very easy that he can re-awaken us to time to time when what he once was.
