**Felon record haunts candidate**

by Judy Kwart

United States senator

Tension between the University and community officials has existed for years, with students and faculty members sometimes feeling like they are being ignored. The problem is not unique to Bowling Green, as similar conflicts have arisen at many universities across the country.

A faculty member at the University of Kentucky, for example, complained that the administration was not doing enough to address concerns raised by students and faculty. The same faculty member also noted that the administration seemed to be more concerned with maintaining its own power than with listening to the needs of the community.

The University of Kentucky, like Bowling Green, has faced similar issues in recent years. In 2016, the administration was criticized for its handling of a sexual assault case, and in 2017, there were protests against a proposed budget cut that would have affected many students.

**Trucks sent to Afghanistan**

WASHINGTON (AP) — The Soviets, on the verge of signing an agreement calling for their withdrawal from Afghanistan, are increasingly distributing military supplies to the Afghan government, according to senior administration officials.

The officials said the supplies, including weapons, ammunition and equipment, are being sent to help the Afghan government prepare for the February election. The officials said the supplies are being provided in response to a request from the Afghan government for assistance.

The officials noted that the supplies are being sent to all parts of Afghanistan, including the southern provinces, where the Taliban have been active.

**Marijuana seized from Delt house**

by Rebecca Thomas

United States senator

Marijuana plants and "drug paraphernalia" were seized from the Delta Tau Delta house last week, according to reports.

A search warrant for the Delta Tau Delta house, located at 1201 Main Street, was served on April 18, according to reports. The warrant was executed by the Bowling Green Police Department and the Warren County Sheriff's Office.

The search warrant included a search of the Delta Tau Delta house, as well as a search of the house's carport and garage. A total of 14 marijuana plants and "drug paraphernalia" were seized from the house, according to reports.

The Delta Tau Delta house is one of several fraternities and sororities on campus that have been under investigation for drug-related activities. In the past, the university has cited the need for drug education and the importance of a drug-free campus.

**Killer's fifth stay rejected**

ANGOLA, La. (AP) — Leslie Lowenfield was executed in the early hours of Wednesday for the 1984 murder of his girlfriend and her four children. The execution brought to 20 the number of people executed in the United States this year. Lowenfield was convicted of first-degree murder and sentenced to death in 1992.

The state of Louisiana has executed 24 people since 1976, when the U.S. Supreme Court ruled that the death penalty is constitutional. The state has executed four people since 2010, including Lowenfield.

Lowenfield was convicted of first-degree murder and sentenced to death in 1992. He was convicted of killing his girlfriend and her four children in 1984. The state has executed 24 people since 1976, when the U.S. Supreme Court ruled that the death penalty is constitutional. The state has executed four people since 2010, including Lowenfield.

Olcamp takes correct stand on Peace Pole

In regard to the issue of the Peace Pole on the University campus, I agree with the position of the chairman of Student Senate, Neil Olscamp. I agree that the pole is a great idea, but I feel that world peace is very important and creating a symbol of peace is a step in the right direction. I would say that the pole is a great idea, but I feel that world peace is very important and creating a symbol of peace is a step in the right direction.

I think that the first amendment right of freedom of expression could be mistaken if the pole were to be put up without any consideration of the possible consequences. I believe that the pole should be placed on the campus and that the University should be responsible for the pole. I believe that the pole should be placed on the campus and that the University should be responsible for the pole.

If this were so, the campus would be concern with what was written on the pole. I wonder if it is not true that they would not be defaced, damaged, or burned down. The issue is that Neil Olscamp is清楚 the sense, and the old boy isn't. I agree with Neil Olscamp. I think that the pole is a great idea, but I feel that world peace is very important and creating a symbol of peace is a step in the right direction.

Taliaferro endorsement

In light of new information, the News is withdrawing its endorsement of Craig Taliaferro for the University Student Government presidential seat. Although the News believes a convicted felon should receive every opportunity to succeed in society once his rehabilitation is completed, Taliaferro's background raises grave moral questions — questions that students should consider before casting their votes.

Taliaferro's conviction of robbery in 1982 would seriously jeopardize the public trust in its elected leaders. The Undergraduate Student Government president is entrusted with the responsibility of handling about $25,000 in allocated money — student money.

With reports of USG credit card abuse earlier in the semester, it is easy to see how money can be misused.

The position of USG president should be filled by a person who has shown honesty and responsibility in the past.

Based on this new information, the News believes Taliaferro would be the wrong choice for USG president.

Taliaferro

As far as I know they disbanded in the 1960s, but a student turned in a research paper to the other day and this student claimed they were still active," Blash said.

Taliaferro said he is "currently appealing the whole process." But the status of the appeal and the course of action are still unknown.

As an undergraduate at the University in the late 1960s, Taliaferro was arrested by city police and charged with selling himself in a college possession of marijuana, according to official records. He pleaded guilty to a lesser charge of possession of marijuana and was sentenced with seven to 15 years in the Mansfield Narcotics to a minor and possession of narcotic drugs, according to the Ohio Secretary of State.

"Neither department did it," Taliaferro said he is "currently contesting the violation," he stated.

"He could not participate in police activity," the article stated. The article said he was charged with using obscene language or attempting to engage in prostitution. It also said Taliaferro was charged with possessing a firearm and being a felon in possession of a firearm.

"Taliaferro admitted he was under arrest with authorities in Great Britain in June 1972," the article stated. "He said the charges were an "alleged probation violation" and he was never charged and did not appear in court.

"The Judge reviewed it and is still under investigation," the article stated. "In this case, the officer had developed some information and the basis of the data developed by the officer, Weekley said. "He declined further comment."

As of the city."

Efforts to reach British authorities, "I am still paying for it, and I always will."

Here's a tip ... a tax tip.

If you work for yourself and you make at least $400 a year, you must fill a tax return. Don't get knocked for a loop on this one.
Board starts pledge drive

By Judy Isom
assistant city editor

The next two weeks will be crucial in the progress of the recently incorporated Bowling Green Community Development Foundation.

Mike Marsh, city attorney and an officer of the foundation's board of trustees, said May 3, an initial pledge drive for the corporation will be completed.

"By then we'll find out whether this is going to work or not," he said.

The corporation was formed to promote the general commercial welfare of Bowling Green, according to the articles of incorporation filed with the secretary of state on April 4.

This will be accomplished through improving business conditions, promoting cooperation between the business and professional community and improving the area in general, it stated.

Joan Garvey, executive director of the Bowling Green chapter of Ohio's community development corporation, said the board decided Wednesday to spend the next two weeks collecting the $66,000 pledge.

She said the board has already identified 15 individuals, businesses and groups sufficiently interested in the community to pledge, although the names are needed before the new board of trustees, made up of those pledging, can meet.

Marsh said the initial board is hoping for 20 pledges, with the deadline for the next three years.

The money will be used to hire a full-time executive director, as well as paying for expenses incurred in carrying out the job.

The initial board, appointed by Mayor Edwin Miller, consists of nine community members and business people.

The corporation was founded by an attorney and co-owner of the property on which the original furnace building of the plant for 19 years and in- tended to make the site more attractive by making it usable and we can hopefully make the site more attractive by making it usable.

Maurer said the building was used for 40 years, said the destruction involved with the Heinz Company.

“Certainly the site is going to be heavily damaged as the only remaining building of the H.J. Heinz Ketchup Factory is being destroyed,” Robert Maurer, local attorney and co-owner of the property on which the original furnace building of the plant for 19 years, said the building is being removed to give better access to the railroad tracks.

"Hopefully by removing the building, we can entice someone into using the property," Maurer said.

The building, about 160 feet in by one story and the railroad tracks blocking the brick to any other industry which might locate on the property.

Maurer said the building was not in condition to repair it for any other use.

"It is not a good, functional building," he said. "It wasn't much and it was a historical landmark for the city," Richard said.

A Bowling Green resident, Richard, said the site has been working for the last 40 years, said the destruction of the plant for 19 years and in- tended to make the site more attractive by tearing it down.

In 1960, a fire destroyed most of the original factory but the furnace building of the plant remained.

Rivett Richardson, a manager of the plant for 19 years and in- tended to make the site more attractive by tearing it down.

"That it is going to be a historical landmark for the city," Richard said.

The plant's operations "had gone down badly" during 1947, he said. By late 1948 it was handling the largest volume of tomatoes by any of the Heinz factories.

**Fire truck reaches 10 floors**

*by John Moda city reporter*

The City Fire Division is getting a new tool to reach new heights. On Monday, City Council authorized the purchase of a new $600,000 fire truck with a ladder truck — tall enough to reach the top of Offenhauer East.

The truck includes its own pumping unit, doing away with the need for a tanker truck, and makes rescue from tall buildings easier, said fire chief Jack Gonyer.

"This truck, I feel, will serve us adequately," Gonyer said.

Another feature Gonyer said he likes about the truck is that it makes rescues from tall buildings easier, said fire chief Jack Gonyer.

"This truck, I feel, will serve us adequately," Gonyer said.

Amtrak train kills 5 in two car collisions

CHICAGO (AP) - Amtrak train No. 392, on its midnight run from Carbondale, Ill., to Chicago, killed five passengers and injured four crew members when it hit a car that skidded onto the tracks, authorities said.

The incident occurred near Kankakee, about 60 miles south of Chicago, after dark at the maximum 79 mph when the railway crossing gates and struck the crossing, marked with a crossbar and no gate or lights. The crossing was not responsible for the accident, but it was too late, said Deputy Kankakee County Coroner Robert Gessner.

Police Sgt. Don Boldrey said fireman William Daniel, a 36-year-old man, and his 26-year-old wife, Karen, were killed when her car skirted horizontal crossing gates and struck the train near Kankakee, about 60 miles south of Chicago, officials said.

"You don't forget things like this... You get the shakes," said engineer T.B. Parker, who was operating the train when the crash occurred.

"You don't forget things like this... You get the shakes," said engineer T.B. Parker, who was operating the train when the crash occurred.

The victims of the first accident were identified as Civil Ray Chandler, 35, of La Grange Park; a 34-year-old man, and a 20-year-old woman, both from the area. The second crash occurred when its boiler room exploded.

Mr. White had already applied the brakes, Parker said. The vehicle struck the crossing, marked with a crossing symbol but no gate or lights. "Mr. White had already applied the brakes," Parker said. "He started blowing the whistle. Then we got the braking is exerted. He said the engine had been moving about 7 mph and came to a halt one-third of a mile down the track. Markush said she did not know what the authorized speed limit was in that area but said the train was traveling within it.

The train was delayed about an hour and then headed north again, with Parker taking the controls about halfway through the 300 mile run - a routine switch.

The train passed through Kankakee after dark at the maximum 79 mph when the railway crossing gates and struck the train near Kankakee, about 60 miles south of Chicago, officials said.

Marines fight in Panama

Panama City, Panama (AP) — About 100 U.S. Marines were engaged in a two-hour firefight here late Wednesday. The fighting in a jungle area near the U.S. military base was sparked by the intervention of Panamanian military personnel.

Calling them "rash and irresponsible provocations," the Panamanian government Tuesday night rejected the Pentagon's claim that the incident was provoked by the intruders.

"When one has intruders into the base perimenter, who are in uniform and are camouflaged, the assumption that one comes to is that of course they are engaged in a military intervention," Dan Baumer said. "This has just been a very active election. When you get many people running there's a lot of interest," said Patty Bono, a Palm Springs city clerk, who estimated turnout at around 30 percent. "Our residents are proud to be part of this country's military."
Student boycott ends

GRANVILLE (AP) -- Students at Denison University returned to classes Monday following two days of boycotts in response to a racial incident in a student dormitory.

The Black Student Union, which had called for the boycott Monday and Tuesday, demanded the university fire a black senior from the dormitory’s head resident. The students take issue with the white student’s treatment of black students.

The president of the University Judicial Board, comprised of four students and four faculty members, met to hear the case and recessed the trial today.

The two white students accused of harassing Aaron Lamura, a black senior from Toledo, Laramore claimed in a complaint he filed against the dormitory’s head resident. The students take issue with the white student’s treatment of black students.

Hayes’ walk dumps ONU

The comebacks continue for Bowling Green’s baseball team. Designated hitter Mike Hayes (9) intentionally walked in the ninth inning with the game tied at 9-9. ONU pitcher Todd West then forced Kevin Ward (0-1) to fly out, lifting BG to a win, 10-9. Bowling Green’s coach Ed Platzer said, “We wanted him to work to a strike.”

With the game tied, West (0-1) intentionally walked Chris Carter to again load the bases. Platzer then sent Hayes—who had four RBIs—up to bat. The catcher Mike Warvell—who had held BG scoreless up to that point—drew a four-pitch walk. Hayes took a 3-1 pitch high and then drew another walk before getting the hit he needed to end the inning.

The Falcons’ last at-bat for the day came on the ninth. An eighth-inning solo home run by ONU catcher Mike Warvell put the Polar Bears ahead 9-8. Dusted

Ohio Northern shortstop Kent Schoeff shows he held on to the ball after snagging Bowling Green’s Jason Welch during a third-inning rundown. Welch had tried to advance from first to third after ONU second baseman Wally Powers mishandled Kevin Ward’s ground ball.

Sub stars in Tribe win

Cleveland (AP) — Bill Kastler, playing in the off-season, hit a two-run homer in the first inning against his former team to help the Twins beat the Indians, 7-5. Kastler, who had been with the Indians since 1982, hit his first career home run against his former club.

Kastler's three-run homer in the fifth set up the Twins' win. The Indians, who were swept by their division opponents, were eliminated from playoff contention.

Pistons throttle Cavs by 17

In Cleveland, Jeff Dedmon pitched 2 2-3 scoreless innings for his first win of the season. The Pistons defeated the Cavaliers, 105-88, in the fourth game of a five-game series.
