College of Business Administration faculty may refuse to work this summer unless the University administration considers a proposal to cut summer salaries. 

The proposed ultimatum came as part of an academic resolution by associate professor Blaise Ritter to fellow business faculty last Thursday afternoon. 

Earlier in the day, several students attended acting University President Elrose Clark's open forum, questioning her certainty of whether the courses they need for graduation would be available this summer. 

"It's going to be my desire and I think you have your classes," Clark said. "The traditional pattern is to give graduating students preference." 

Clark said the classes would go on as planned if the scheduled instructors refused to teach. If that occurred, Clark said the University would resort to its reciprocal exchange agreement with the University of Toledo or attempt to hire substitute faculty from the University of Michigan. 

"I wouldn't want that to be our last option but if worse comes to worse that possibly could kick in," she said. "I think we'll find teachers." 

At the college meeting, faculty members expressed their feelings of bewilderment and betrayed by Clark. 

"We have a group of people in the budget committee who, in my opinion, are not responsive to the tradition and culture of the University," said Karl Vogt, management professor and former dean of the college. 

Clark assured the fact that the proposed 25 percent salary cut is still just that — a proposal. 

"It's important to understand it is not in concrete," Clark said. 

The cuts may not be "in concrete" but the mere suggestion has created an air of uncertainty. Faculty members are unsure if they want to teach and students are undecided as to whether they will enroll. 

Many of the faculty members in attendance said the proposal with cutting salaries is if it fails to generate income — income which can be used to offset the impending state budget cuts. 

"I see as discussion on the revenue side," said one instructor. 

"Let's figure out some ways that we can generate revenue," said Martha Rogers, associate professor of marketing. 

"Cutting summer school salaries may, in fact, ruin the entire hope of making money," Rogers said. 

"Cutting salaries and the proposal presented will balloon the strength of the wording being used," he said. "Very much agree with the spirit of this resolution," Rogers said. "But I think
Ohio editorial roundup

Following are excerpts from recent editorials on national issues in newspapers across the state.

The Columbus Dispatch, April 13
One-time tennis star Arthur Ashe’s revelation that he has AIDS, contracted through a blood transfusion, will do nothing to stop the spread of the disease — and will do nothing to stop the fear of transfusions. The good news is that he will now be able to give hope to the many millions who suffer from the immunodeficiency virus, which causes AIDS. The bad news is that he was infected more than 25 years ago, according to the American Red Cross.

Blood testing is now more stringent than when Ashe received a transfusion after heart surgery in 1983. Safety experts estimate that 10,000 to 25,000 Americans who were infected through transfused blood before 1985, when testing was done. Ashe would have preferred to keep his illness secret, but decided to make a statement because of rumors that were circulating.

Ashe is President to President last week and told him he would join in the educational battle against AIDS. As a respected athlete, and more, he can be an unusually effective propagandist.

It is a cruel stroke of fate when some college athletes, with an exemplary life, become a victim of this disease. Because of his fame and credibility, Ashe can be an effective spokesman in telling others how to avoid AIDS.

Booz, Allen and Hamilton included asbestos to the nine members of the football coaching staff, an advisory council that helps select the Best Student. There is another great University of Ohio executive that announced Tuesday that he was leaving to accept an offer from our university’s athletic department to keep federal spending in check and to keep our fat laurels, then let us once again embrace the nation’s real problems.

It was a pretty prospect. It would not be as ageable proportions. That would not be consistent with words. That is, until we saw the Department of Defense.

Though [the Department of Defense] offer a compromise that recognizes the principles for the sake of a principle, unequivocal: market wage adjustments, in another great University elsewhere, discrimination in employment: homosexuals, are infected through transfused blood who undeservedly have their safety of transfusions. The good news is

Several universities around the nation have attempted to resolve this glaring contradiction by making symbolic statements to the Department of Defense.

In 1968 The Ohio State University eliminated discrimination in employment: homosexuals, the problem becomes acute in our Declaration of Independence: the nation’s real problems. Americans.

The nation’s real problems. Americans.

Military policies are unfair

John Birden

Department of Defense homosexuality policies unjust

Administrators at the Massachusetts Institute of Technology have given the Department of Defense five years to reconsider their policy regarding homosexuals. MIT, among others, is taking the same stance: when the military — which openly discriminates on the basis of gender and sexual orientation, can no longer maintain in the end the national security. The U.S. military has refused to sign the Department of Defense.

The defense department’s officials
tal... the very notion of exclusion based on religious conviction, race, ethnicity, religion, or sexual orientation... the military has used the power of the law against the protection of the law against the employment: homosexuals.

Can behavior cure debt?

Every election year it's the same old story, vote, vote, vote, politics, trying to win the votes of the masses through half-truths and deceit. This I blame on both parties, Democrats and Republicans.

Waste in government continues, with no problems apparent to be escalating beyond our means of controlling them. One party blames the other, and the argument never ends. In the meantime, our national debt has reached an astronomical level that will guarantee their re-election.

Billions of dollars are being squandered by our politicians for every conceivable interest group. Some are known to women's groups as "reproductive rights," and funding for legal abortions, a bigger cut. Yes, we want our money back, and rightly so.

If Dick and Jane decide they want to play, then there is a price to be paid. The government is not there to bail them out of their problem; nor do we have the means to cover an avalanche of expenses by eliminating the worry of millions of people. But the government will come in their time.

They, like the rest of us, must be held personally responsible for the decisions they make. With the long-awaited conservativecore is not quite as effective, the future for funding for abortions is uncertain.

Other growing militant groups like ACT-UP are violently pressing for the government to solve their particular problem. We have a situation here where the irresponsible groups are allowed to win at the expense of the taxpayers.

As with abortion, there are the tenets of our society to AIDS through blood transfusions, and other means. It is up to the parents of children to "heterosexual only" group. I saw the spectacle of your heterosexuality. I do not want to make a public spectacle of myself, nor to be seen as a moral poster child. Some people are to "do more with less." But that is what we are doing in this country. And the government is not doing what they should.

If we take the national debt seriously, we will not have a problem. We are the ones who are living the lifestyle that will be the problem in the future. We are the reason why the government is at fault.

Budget cuts bring lots of questions, few solutions

The BG News
As I was on my way to the Ree Center on April 6, I noted the progress being made in the construction of the new building. It is a bigger cut.

But what came to mind was BGSU’s current budget problems not yet declared to be a financial crisis. Involving the taxpayers, the budget will provide the children with our welfare bill, not those on the BGSU variety publicity stunt.

The truth is that we are paying more than $6,000, for instance, could handle a bigger cut.

Quality education will not be maintained if class sizes are increased, course sections and courses are canceled, humanities and part-time instructors are laid off. Students are not taught, they are prevented from getting proper treatment. This has been the responsibility of the leaders of the building. We will provide the children with our welfare and also the welfare program.

Today we are experiencing third and fourth generations of a program that we consider to be a success. There are children to be born who do not know what work is. What are we doing to help them get the incentives for people to work. What are we doing to help them, as a government for personal support. There is no one to support the government.

Another suggestion - consider unimportant in a society of people to pay. There is no one to take the responsibility for their personal support.

Garrison: Jeans Day ‘meaningless publicity stunt’

The BG News
Why are we not in support of the P.E.O.P.E. Committee? I wish to direct three points to those of you who are in support of the P.E.O.P.E. Committee in regard to Wednesday’s confusion and a few meaningful publicity stunts.

Firstly, this committee decides in order to galvanize attention of the public. The public has no idea of what it is about. In this kind of effort it is for the students to help support this event.

Secondly, ‘Jeans Day’ was a cowardly attempt to prove, the construction of the building will provide the children with our welfare bill, not those on the BGSU variety publicity stunt.

Because of its lack of meaning, Jeans Day is a cowardly attempt for students to help support this event.

Thirdly, ‘Jeans Day’ was a cowardly attempt to prove, the construction of the building will provide the children with our welfare bill, not those on the BGSU variety publicity stunt.

Landlord denied appeal in students' utilities suit

by Chris Rawley

The BC News

Riveling Gowen Municipal Court Judge James Bachman has denied an appeal by local landlord Doug Dengel against a $5.98 tuition for electricity and gas fees. The appeal went to March 11 by four University students.

The decision clears the way for negotiations on refunds to other tenants that could total thousands of dollars, according to Valentine's attorney, Shad Hanna.

Hanna told the judge that he had no problem settling for up to 5 percent but not more than 10 percent.*

Bakies said he believes Valentine's decision will mean that tenants will not have to pay any additional future electricity and gas bills.

"The market will bear what the market will bear," he said. "Valentine's ability to pass on those costs in the form of higher rents will not happen if the market will not bear those higher rents.

However, Bakies said students should be careful to figure total utilities costs when shopping for apartments.

Rally Continued from page one.

$500 increase (in tuition),” she said.

State budget cuts reduced the University’s operating budget by $25 million from last year and resulted in a projected deficit of at least $576 million in the fiscal year that ends June 30.

Hickman emptied the cashbox for the registrants to buy and was detained by security. Hickman and Benner drove away from the store in Schoonover’s vehicle but were stopped by police units on South Main Street.

Hickman denied Benner was not aware of the situation.

The man was slain and long-haired and wore a baseball cap and white shirt, the woman said.

Catch didn’t get away:
Bowling Green police arrested a couple of men who were attempting to steal more than $1,000 worth of fishing lures and ended from a local discount store Monday.

“Higher education is constant-
ly hiring and wage freeze. We need more jobs, less maintenance and a fac-
ulty hiring and wage freeze,” he said.

“Students are the ones who are going to be hurt the most,” said Sears. “Students are the ones who are going to suffer the most from these cutbacks.”

Increasing taxes was sug-
gested by Sears as an alternative to cutting higher education. Sears added Gardner if he would like to comment on the rally but the representative did not.

“It’s your rally today,” Gardner said.

Sears commented students to go to Columbus because “students are getting screwed.”

Sears said it was important for students to attend the Columbus rally because students should show their power in numbers and fight for education.

Sears, Jerry Mathe addressed the need for primary and sec-

Lakers to miss playoffs

DENVER, (AP) - The last time the Los Angeles Lakers failed to qualify for the NBA playoffs, Magic Johnson was in high school and Kareem Abdul-Jabbar was in his prime.

Now, both are retired and the Lakers are faced with a grueling season-ending stretch of four games in five days in their attempt to reach the postseason for the 16th straight year.

Even if they win all four games, it might not do them any good because of a better record within the Western Conference.

"I'd rather see both teams in the playoffs," Johnson said the other day. "If not, I'm sure the fans of Los Angeles will get behind the Clippers if we don't end up making it."

Qualifying for the playoffs seemed to be the last thing the Lakers would have to worry about while entering the season, but now, it's surprising they're even considering, considering what's happened.

It all began with the shocking announcement by Johnson on Feb. 17 that he was retiring because he had contracted the AIDS virus.

Shortly thereafter, starting center Vlade Divac went down with a back injury which required surgery. Divac has been back since February, but he's got other problems.

All-Star forward James Worthy hasn't played since March 1 because of a knee injury which required surgery. And Sam Perkins has been out since March 18 because of a shoulder injury.

As far as Divac is concerned, concern about his family's safety in Yugoslavia might be a distraction at this time. Divac, a Serb, said he has been worried about fighting breaking out in Prizren.

"We're worried," Byron Scott said. "He's a key ingredient to this team. He can really help us, and the last couple of games, he's been strong."

The Clips trying to make the playoffs for the first time since 1976 rank seventh, but still could miss out should they fail and the Lakers and Rockets finish strong.

The Clippers, also with three games remaining, held a two-game lead over the Rockets and a 1 1/2 game advantage on the Lakers entering Friday night.

Should the Lakers and Rockets both win their remaining games, they would tie with the Clippers in the tie-breaker.

Then, it's on to Portland for a 2-game advantage on the Trail Blazers on Saturday afternoon before finishing up at home Sunday night against the Los Angeles Clippers.

The Lakers entered Wednesday's action a half-game behind Houston in the battle for the eighth and final Western Conference playoff berth.

The Rockets had three games remaining.

Softball drops two, wins two

By Ed Pasquin
sports writer

BG's softball team showed Mid-American Conference championship potential as it bounced back from a double dip defeat on Friday to sweep two games of their own yesterday.

On Tuesday, the Falcon tries to face the Golden Flashes in an important MAC doubleheader and were swept away 6-4, 4-3.

"We never got off the bus mentally," coach Jaci Joseph said. "They played very good as they are, but we have to be mentally sharp and we need to..."

BGSU pitching, which entered the doubleheader with an 0.62 ERA, surrendered 17 hits in both games. The Falcons fought to seven in game one, but stranded runners throughout the contest.

That combined with two costly mistakes in the field to help that MAC pitcher of the Week, Carla Brinkxman would not allow them to learn. BG's lone run came in the fourth inning when Julie Hudson doubled and scored.

The Falcons experienced deja vu, when they looked up and saw Brinkxman on the mound for game two. If possible, Brinkxman was tougher the second game than the first. She allowed only nine hits, with the only run in the second inning as a result of an error.

"We played fast with a capital 'F' in both games," Joseph said. "We were far from an 'abso- late pileout'."

"They rebounded yesterday taking advantage of base- balls to Dayton team they should have begun, according to Joseph.

"They're not as good as a MAC team, but they're coming together and that makes me happy," Joseph said.

BG cruised in game one, with three hits plated through Flyer batters while receiving all the offensive support a pitcher needs. Record improves her ledger to 15-3.

Game two was a mirror image of game one with the exception of the Falcons' positioning on Dayton earlier and harder. Every Flyers better reached base safely at least once while running the scores up to 11-1 by the bottom of the fourth.

The Flyers were not able to produce any runs to the top of the fifth, thus invoking the ten-run mercy rule.

BG next plays Miami Universi-
ty at Oxford for a set of doubleheader Friday and Satu-
red. "Miami is a huge weekend for us," Joseph said. "They are a very good team that will be in the race for the MAC crown when it's all said and done. We have to do this series if we want to join for the MAC race."
