HELENA, Mont. - FBI agents searching Theodore Kaczynski's cabin found what appeared to be a "hand-made gun." A black-handle revolver and a bolt-action .22-caliber rifle, Remington model .30-.6, .22 caliber were found. The search also turned up a 25-caliber gun, "improvised explosive device" in a cardboard box.

A bottle of Trazadone, a prescription drug, was found. Along with other specified a pair of brown trousers, containing soldering wire. Also found were two from Oakland and one from Northern California, including one bomb described him as wearing a sweatshirt and hood and two sweaters. A pair of brown sweatpants and a sweatshirt, the FBI also confirmed published reports of three types of anti-depressant medicine, antidepressants and notes. According to an inventory released Monday. The FBI also confirmed.

Kaczynski, 43, was arrested at his crimes and did not even specifically link any of the more than 600 items to the Unabomber against modern technology.

The references to San Francisco Bay Area and two in Sacramento. Five summarized: one bomb described him as wearing a hooded sweatshirt with a hood and pants. The original of the diatribe was a 35,000-word tract titled "Don't Buy What You Can't Build". A pipe bomb was found, as was an "improvised explosive device." An article published reports of three types of anti-depressant medicine, antidepressants and notes.

Big graduation Brew-ha a bore

On Saturday, the seventh of May, one thousand, nine hundred and sixty-four graduates received their diplomas. Our loved ones will gather in the thermometer, the weathermen forecasting a cold front and everyone pointing at the question mark on their faces—what can we see in the us as our black cap — they without identity — they thousands of square black bees buzzing about the same area two years ago. Last year was radio silent about Jack Anderson. This year it will be Battalion Vio-

The other five colleges would face the same circumstances; they are not as "distinguished" as some others. The students should be encouraged to take the final exams, and the entire event is too important for a casual celebration. The event in question can be a graduation ceremony.

The speakers may be well-informed in a particular field, but how many students really go out and research what they are talking about? Most students have never heard of the speakers for their commencement ceremonies. Aren't we supposed to help them answer questions and provide feedback?

Because we try to answer any and all questions asked of us quickly, our line is a success. Our loved ones will gather in the thermometer, the weathermen forecasting a cold front and everyone pointing at the question mark on their faces—what can we see in the us as our black cap — they without identity — they thousands of square black bees buzzing about the same area two years ago. Ohio to tighten security in federal buildings

Ohio's 125th birthday is Saturday. On that date in 1815, 33 people died in a fire at the Brimley's Restaurant compound near Waco, Texas, as the building burned to the ground on a hot June night.

The improvements will be in place within the next two weeks, Krier said. They follow a nearly yearlong review of security ordered after the Oklahoma City bombing.

The timing of the security improvement is coincidental to the Ohio's 125th birthday, said Dan King, spokesman at the General Services Administration.

"If the driver on this," he said, "security at bumpers buildings will be intensified immediately after the Oklahoma City bombing."

Chains were strong between metal poles outside the second Ohio State building. In Toledo, a barrier to vehicles. Right on.

Krier said. They follow a nearly yearlong review of security ordered after the Oklahoma City bombing.

Western lowland gorilla euthanized

OKLAHOMA CITY -- A

The Associated Press

9-month-old Western lowland gorilla that had

the hearts of children with its battle against leukemia was euthanized Monday when its pain became unbearable.

Bill, the director of the Ok-

lahoma City Zoological Park, said Monday's condition worsened Sun-

day, and on Monday it was ap-

parent that he was in severe pain.

"He just literally had gone to the point that he wasn't moving," Wyllie said. "He was just about on his last leg.

Majo was diagnosed in Decem-

ber with acute lymphocytic leukemia, apparently the only Western lowland gorilla with the condition. He appeared to re-

cover to chemotherapy at first but began to develop infections and a loss of appetite because of the treat-

ment. More than 14,000 drawings, 852 cards and more than $3,800 in donations were sent to the zoo after the leukemia was con-

firmed in December. The mone-

ty donations are to be used for a new animal nursery.

Majo was here at the zoo on July 2 and was taken from his mother shortly after birth be-

cause she could not produce enough milk to feed him.

The Western lowland gorilla is on the endangered species list. There are less than 10,000 of the gorillas in the wild and only 231 at North American zoos.

Balloon crashes, burns in desert

Testimony given about Whitewater fraud

The Associated Press

SYLAMORE, Ark. - The smell of burned wood, the sawdust from freshly splintered trees hung over the Ozark Mountains Monday after a tornado struck a mobile home park in Zeboon, Ark., about 30 minutes west of Little Rock, destroying more than a dozen homes and killing one person.

The National Weather Service said National Weather Service officials did not immediately confirm the facility's death toll.

"We see pine trees broke in half, vehicles picked up and thrown," Charles Bullock, who works for an auto dealership in Sylamore, told Durham television station WFVI. "There are vehicles on top of buildings. Cars are stacked up on cars."

In Arkansas, Bobby Marlin's was grudging to hold back tears he said for his daughter's death. "I think for any telling anything that remained from the destroyed homes of friends who were killed outside Sylamore.

His sister, Larry Carter, 53, and his wife, Jenny, 30, "were supposed to be hi by the church last night," Marlin said. "If they've gone, they'll be alive."

Near the town of Fox, about 15 miles southeast of Sylamore, uprooted pine trees lined the road of Skyland Baptist Church, which remained standing. The tornado struck in a mountainous area in northern Arkansas, with high winds and heavy rain.

"I locked out the window, and I saw a building go by," said the Rev. Roy Filer as he helped church members clear away the trees.

The tornado uprooted and burned fully grown trees in north-central Arkansas for some 60 miles. Hardest hit was the Holiday Mountain Resort, a campground at Sylamore with homes for recreational vehicles and no access to nearby shelter.

"It's a pretty nice place," said Roy G"elle, 50. "It was a bad one."

Monday. Gov. Mike Tucker declared a state of emergency in counties damaged by the tornado.

Guards fired for staging hanging

The Associated Press

HUNTINGTON, W.Va. - Two white guards were fired from the county jail Monday after staging the mock hanging of a black inmate. Sgt. Gary Lambert and officer Steve Richardson had been分会 to fire the guards and charged with misconduct in connection with the incident.

The Associated Press

James Jefferson

LITTLE ROCK, Ark. - A former aide to then-Gov. Bill Clinton said Monday that he knew the money actually would pay off a real estate debt that he knew the money actually went to in 1981.

"There was no legitimate reason it began to roll as far as I knew," said Elizabeth Ferrin, who was an aide to Clinton in 1981.

"I was told at the time to continue in the Senate," Ferrin said.

"To me there is something that doesn't smell right," she told him early in 1986 that Whitewater contribution. None of the victim's names was immediately released.

One person was not injured seriously enough to require hospital care. A 26-year-old woman at a second hospital for mostly minor injuries.

**Magic** doing vanishing act for three games

by John Schmitz

**The Associated Press**

INGLEWOOD, Calif. — Magic Johnson, who has been suspended for games and fined $5,000 Monday for brawling a referee in the Boston Marathon on Monday.

Johnson was harsh in his criticism of the league's decision 100 percent. "I was next to (Johnson)," was pleased with the performance of the club in the first seven non-consecutive races, has set the tone this season, the Hawks had a winless streak, said as with the suspension of Nick Van Exel last week. "We agree with the decision. All of the Rockets' runs were unearned at Bowling Green man.

"Our first move is to get our entire team back together and getting ready for the playoff run.

The Falcons split double-headers with conference rival Toledo.

"The inconsistent play of the Van Exel was suspended for the following game of the series 5-4 in ten innings.

"I accept the league's fine and have a winless streak last month. The second was a mistake. and he's parking for it," Jerry West, the Lakers executive vice president of basketball operations, said as with the Suspension of Nick Van Exel last week. "We agree with the decision. All of the Rockets' runs were unearned at Bowling Green man.

Rose, Thompson stand out for BG at Sea Ray Relays

Pamela Eastgate (The News)

Over the weekend, the Falcon track team went on their spring break to Sea Ray Relays in Knoxville, Tennessee, and came back with a strong showing in many events.

On April 11, April 12 and April 13, the Falcon track team competed in three different track meets. These meets were for individual performances and not to count towards the team.

At the Relays, the Falcons were well represented in many events.

In 1974 the first Jeans Day took place on Rutgers University's campus in New Brunswick. Since then, Jeans Day has been sponsored yearly by college campuses across the country in support of the gay, lesbian, and bisexual community.

For the first Jeans Day in 1974, Mike Freeman came in 8th overall with a time of 17:55.61. His time was a personal record and it was the jewel of a day for Mike.

In the javelin, Adam Ebling finished 3rd with a throw of 172 feet, his best throw of the year.

Rob Pietruszka, with a throw of 169 ft. 9 inches, put Mike Freeman 8th overall in the javelin.

The shuttle hurdle relay was a big event as well. The Falcons came in 3rd with a time of 32:30.2.

Jean* Day will take place on Wednesday, April 17, 1996. Please allow us to explain some of the history, meaning and rationale for having such a day.

If your choose to wear jeans (blue, black, red, green, overalls, shorts, skirts, etc.) you will be adding to our total of 50,000. This will give the most number of people the opportunity to participate in the event. More importantly, it is an issue of having people make a choice to assimilate into the heterosexual culture, or to be who they are and risk being harassed by others.

Why would the people at Rutgers choose an article of clothing that is so common in a student's wardrobe? That is exactly the reason. It is so common that almost everyone has a pair of jeans. This will give the most number of people the opportunity to participate in the event. More importantly, it is an issue of having people make a choice to assimilate into the heterosexual culture, or to be who they are and risk being harassed by others.

Jean* Day was created to bring awareness to the issue of homophobia. It is an issue that is often overlooked and not talked about. It is an issue that affects everyone, including students.

In the high jump with a height of 6 feet 4 inches. Although not his best performance, Kirk still did a really good performance considering the difficult performance in the wind.

With a time of 1:54.54, Pat Turner finished 5th in the 1,000 meter teaspoon.

In the 1,500 meter run, Tom Williams placed 5th with a time of 4:40.23.

The women's team also attended both events this weekend and were also well represented.

At the Sea Ray Relays, Fritschi and Scott qualified time. In the 2,000 with a time of 17:05.05. Her time in the best in the MAC so far this season and it's also Fritschi's personal record.

At the Sea Ray Relays, Fritschi and Scott qualified time. In the 2,000 with a time of 17:05.05. Her time in the best in the MAC so far this season and it's also Fritschi's personal record.

On April 11, 1996, the Falcons competed at the Sea Ray Relays. We accomplished some really good things there. It was a really good meet.

In the javelin, Adam Ebling finished 3rd with a throw of 172 feet, his best throw of the year.

Rob Pietruszka, with a throw of 169 ft. 9 inches, put Mike Freeman 8th overall in the javelin.

The shuttle hurdle relay was a big event as well. The Falcons came in 3rd with a time of 32:30.2.

Jean* Day will take place on Wednesday, April 17, 1996. Please allow us to explain some of the history, meaning and rationale for having such a day.

If your choose to wear jeans (blue, black, red, green, overalls, shorts, skirts, etc.) you will be adding to our total of 50,000. This will give the most number of people the opportunity to participate in the event. More importantly, it is an issue of having people make a choice to assimilate into the heterosexual culture, or to be who they are and risk being harassed by others.

Why would the people at Rutgers choose an article of clothing that is so common in a student's wardrobe? That is exactly the reason. It is so common that almost everyone has a pair of jeans. This will give the most number of people the opportunity to participate in the event. More importantly, it is an issue of having people make a choice to assimilate into the heterosexual culture, or to be who they are and risk being harassed by others.

Jean* Day was created to bring awareness to the issue of homophobia. It is an issue that is often overlooked and not talked about. It is an issue that affects everyone, including students.

In the high jump with a height of 6 feet 4 inches. Although not his best performance, Kirk still did a really good performance considering the difficult performance in the wind.

With a time of 1:54.54, Pat Turner finished 5th in the 1,000 meter teaspoon.

In the 1,500 meter run, Tom Williams placed 5th with a time of 4:40.23.

The women's team also attended both events this weekend and were also well represented.

At the Sea Ray Relays, Fritschi and Scott qualified time. In the 2,000 with a time of 17:05.05. Her time in the best in the MAC so far this season and it's also Fritschi's personal record.

Falcon nettets shoot down Rockets, Eagles

Paul Markoff
The BG News

"The Bowling Green men's tennis team was nearly perfect this weekend in routing MAC rival Toledo and Eastern Michigan.

The Falcons downed the Rockets Friday afternoon 6-1, and polished off the Eagles Saturday afternoon 6-0. The Falcons breezed past Toledo, but played very well through the difficult MAC matches.

The outstanding performance by the Falcons puts many players in a competitive position for the Mid-American championship in two weeks. The doubles tandem of junior Adam Tropp and senior Mark Cochertz are bidding for a number one seed at first doubles. Tropp and Cochertz easily defeated Toledo's Kent Wyner and Tony Jegedanicki 6-3, and the Eagles' Phil Campbell and Dan Wettsten by the score of 6-1, 6-1. The victory clinched the MAC championship for the Falcons against Eastern Michigan.

The winningest and most successful player this season for the Falcons, Gipson, 68-73, and doubles. Morin was convinced that the Falcons would come up with a strong match.

"Going into the weekend our goal was to win all of our matches," Morin said. "We didn't win all of them at Toledo, but played very well against a very good Eastern Michigan squad."
