Dining Services gives students a taste of Asian culture with sushi demonstration at The Oaks on Tuesday

By Tierra Owens

Excited laughter and loud whispering filled the area around the Gumbo station as more than a dozen people gathered for a sushi demonstration at The Oaks.

"I'm so excited," someone said, with a chorus of "So am I!" soon following.

The demonstration, "Sushi 101," took place from 3 to 6 p.m. and required pre-registration. Everyone took their places at reserved tables and played with their bamboo mats.

The demonstrators, "Sushi 101," marked the first of three events in the Relaxation Series hosted by University Activities Organization. The group organized the series for the last few weeks of the semester to help students relax during stressful times.

More than a dozen students attended the event and had the opportunity to share relaxed experiences and feelings about noodles. The discussions led to connections and reaching out to others who had similar stories.

The workshop also offered resources to help with the grieving process and ways for students dealing with loss to start healing and be heard.

It is estimated that 40 percent of students will face the loss of a loved one while attending college, according to the workshop speakers. Different ways to cope with the loss of a loved one include: turning to those close to the deceased person, finding solace in spirituality, faith or prayer, doing something to honor the deceased person, healthy self-care and seeking out resources and assistance.

Further help for grief can be found at the Counseling Center, located at 104 College Park Office Building. Visit www.bgnews.com or call 419-395-4881 for more information.

STRETCH TO UNSTRESS

**CAMPUS BRIEFS**

**Victim reports sexual assault to city police**

A woman reported she was abducted and sexually assaulted while entering the apartment building located in the 400 block of E. Court St., during the late evening hours of April 1, according to the press release.

While she was attempting to enter her building, two men allegedly forced her toward the back of a car and drove around while she was sexually assaulted, according to the press release.

The suspects were described as white, one thin and taller than six feet and the other stocky and shorter than six feet, according to the press release. The woman said her name was unlisted, and it was not listed on the victim's phone, according to the press release.

The suspect who was chipped is white, dark skinned and the same person who was once chipped from the man who was once chipped.

The suspect who was chipped was described as a white, dark skinned and the same person who was once chipped from the man who was once chipped.

The victim was referred to Wood County Hospital, where she was treated and released, according to the press release.

The victim reported the incident April 5.

The suspect who was chipped is white, dark skinned and the same person who was once chipped from the man who was once chipped.

The suspect who was chipped was described as a white, dark skinned and the same person who was once chipped from the man who was once chipped.

The victim was referred to Wood County Hospital, where she was treated and released, according to the press release.

Police continue to investigate the incident.

"It Gets Better" author to visit campus next week

Columnist, author and MTV show host Dan Savage will present his "It Gets Better" project at the University next week.

The event is tentatively scheduled for 1 p.m. in the Cloer Ballroom, according to a Campus Update email sent Tuesday afternoon.

Savage will then sign copies of his book, "It Gets Better: Coming Out, Overcoming and Creating a Life Worth Living," from 1 to 3 p.m.

Savage was a case study featured in the book, "It Gets Better: Coming Out, Overcoming and Creating a Life Worth Living," from 1 to 3 p.m.

The University's largest community outreach programs and services more than two dozen shows, according to a Campus Update email sent Tuesday afternoon.

Collection bins will be available in residence halls; Grainger, the Student Union and several other locations on campus, according to the email.

Camping hours will be given to local food pantries, shelters, services agencies and nonprofit organizations in need.

FGI, the University's green movement, is calling on students to donate items Monday for its annual "When We're Gone, Give Away" event.

During the University's early years, all first year students were required to wear beanies for the first month of classes.

Students encouraged to donate items before moving out

The Office of Campus Sustainability will begin collecting items Monday for the second annual "When We're Gone, Give Away" event.

The event guests had a great time and peeled off in their sushi creations. Afterwards, Hannan discussed the importance that learning has in the kitchen. Hannan has been working in Dining Services for the past four years and has 28 years of professional culinary experience.

The Gumbo station has built-in speakers, television monitors and cameras that stick out for the purpose of observing the food. Hannan said, The Gumbos have previously hosted a similar event, focusing on the use of fresh fruits and vegetables in cooking, Hannan said, "Expect more events like this," he said with a smile.

Do not be afraid to invest faith in friends

LGBT advocacy campaign raises awareness, does not fully fix problem

For the last few weeks, there's been a song I've borderline obsessed with—"Dont' Plus a Little Faith in It."

Not a very popular song, nor one that was released any time soon, but the lyrics have stuck with me.

"One day, I might, I couldn't get it out of my head.

Finger is designed the song, but move on the latter. I'll have that in my head for a long time."

The song was about the singer loving this other sister and needing that person to trust him. Trust. Maybe that's the concept my mind kept telling me to examine further.

Having been blessed with superb listening skills, I'd always been a bit overzealous. Others could tell me that I was a bit too suggestible if I spoke to others. Fortunately, many people today confuse that with trustworthiness and have other people do for that.

Having trustworthiness is the easy part. The hard part is trusting others and learning how to keep your faith in them.

Maybe it's vulnerability to do a group project alone because you suspect your other classmates will flake out, or because you suspect your faith is not truly safe for them. Fortunately, not everyone worries, confusing theirselves with trustworthiness and have others do for that.

Keep your nose to the ground, don't ask for help, and they might judge. They might sneer at your friendship, like it's actually a silly tangible thing that could be escaped any day

Or you could trust them. Sit them down and tell them all about yourself—hopes, dreams, fears, wants and worries.

Cast them in and I'm sure they prove what a wonderful person you truly are.

Wednesday, the University Activities Organization, is sponsoring a visit from new columnist, LGBT advocate and founder of the "It Gets Better" project, Dan Savage.

As a gay man and student activist, I am very excited to read from his book and hear his stories. We've all the possible sentiments.

He might tell. He might rail against the cry, preferring his own story to yours. Maybe that's the story with the song.

"It Gets Better" is an online series of videos created in September 2008 to combat the string of LGBT youth suicide due to harassment and bullying, spoof and his partner, Terry Miller, was the first to upload the first video. Their vision spread a message of hope, to LGBT youth, letting them know that "it gets better." Since the launch of the project, more than 540,000 videos have been uploaded to YouTube featuring celebrity, politicians, and regular folk telling their personal stories of coming out. If you're someone on their channel, they might rail on against the cry, preferring their own story to yours. Maybe that's the story with the song.

He had a fire inside his heart for that. For that, his charisma was overwhelming. The whole congregation heard an "amen" come from the back of the room, and I'm pretty sure I even over the leadership. It's no secret that religion is a hot topic, this is an international issue with the project.

Media fast makes things good in moderate proportion.

Silence. Do you remember what that sounds like? "That's a bad word, I've asked to do something unusual for an assignment: a media fast. Come on, a few hours."

I was attacked by background music riding on a bus, while at work and at unexpected times during the day.

We were just a stop on his route. I was raging at this point. I didn't get the opportunity to talk to him, fix the local issue. It is a very dangerous thing.

The recognition of the prevalence of use media leads to this question: Are we too media, too.. ." I admire the work Savage has done for the organizaiton "Things will get better," project. I think at least LGBT youth need to know people exist who care about them, but I would also change those people who care to do something about it.

I was attacked by something else online, checking Facebook or a reading the news, a book or magazine. Facebook or a reading the news, a book or magazine.

The status quo thus far has been to treat the symptoms until it is repealed. To quote Barkley, timidity is killing us."

While the LGTB community has come a long way in the fight for equal rights and representation, there is still a long way to go. Things will change with this. I hope.
The Falcons claimed a 7-0 win over Valparaiso Tuesday afternoon at home after splitting the weekend series with a 5-3 in Brown and a 6-1 victory over Bellarmine. BG gave up a mere three games in the 7-0 total games played Tuesday on the singles side. The doubles portion also started the match on the right note, only surrendering four games in a total of 24 played.

The Falcons are now preparing for a MAC game against Central Michigan on Wednesday. Fans are encouraged to make their way to Kende Courts since the match will be hosted on campus.

Baseball pulls 2-1 upset on road against Michigan

By Trenton Luna

Seventy strong innings from Trevor Blaylock helped the Falcons score Michigan, 2-1, Tuesday afternoon in Ann Arbor, Mich.

Blaylock, usually used as a bullpen careers, tossed the best start of his young college career — seven innings, allowing one run on six hits and three walks while posting three strikeouts — to help BG to a three-game losing streak.

The Falcons most recently defeated Michigan in a nonconference game.

The match win Tuesday improved the Falcons' record to 6-0 overall and 3-0 in the conference. It also pushes the team onto a two-game winning streak.

The Falcons are now preparing for a MAC game against Central Michigan this weekend, giving the team a small home stand.

“We don’t want to think about last season at all ... not one time this season we have looked back,” Shannon Sabburg, Head Coach.

Shannon Sabburg said. “We were only two points and another week.

There is always something to improve on, and the Falcons wanted to work on their consistency, but with sights of snow, the Falcons were eager.

There is always something to improve on, and the Falcons were eager.

With the Falcons allowing the majority of their runs in the first inning, Sabburg said, “Our main goal isn’t focused on just MAC. It’s to get through the MAC tournament and get into the NCAA tournament.”

The Falcons are now preparing for a MAC game against Central Michigan this weekend, giving the team a small home stand.

“We always say ‘respect,’ but don’t fear,” Sabburg said. “Our team has respect for every team.”

The team was in a good position after 36 holes, shooting a 304 in the second round and finishing the first day in fifth place. In the final round, the team matched its opening round score of 321 and slipped to eighth place.

Mid-American Conference rival Akron won the tournament with a score of 936. Shelby Wilson was the low scorer for the Falcons, shooting a 79 on Saturday to finish with a 229 and a tie for seventh place, her second top 10 finish this season. She also took the team lead in scoring average with 78.33.

"Individually, I am very proud of Shelby Wilson for a top-seven finish this weekend," coach Stephanie Young said. "Her one under par round was a huge impact to our team score." Young said. "We need to keep going lower, otherwise we have to keep going lower, otherwise we must execute down the stretch."

Paula Diffenbacco tied for 29th with a total score of 241, while Bailey Arnold tied for 29th with a total score of 238. Bailey Arnold finished the tournament with matching scores of 74. BG will host the Dohers Black Falcon Invitational this weekend. The 36-hole event will take place Saturday and Sunday.

"We want nothing more than to play our best yet at our only home event of the year," Young said. "We need to continue building momentum for the MAC Championship."

Expiration of bill may increase loan interest rates

Major changes to the structure of unsubsidized student loans may make paying them off significantly more expensive.

According to a 2012 report by the Office of Student Financial Services, the University of Texas at Austin will no longer subsidize student federal loans in the 2012-2013 school year. In its place, the school will charge 6.3 percent interest on subsidized student loans.

This is the first time in 10 years that the university has charged interest on subsidized student loans. Before that time, the school would cover the interest costs.

While the change will not affect students who have already graduated, it will affect new students.

Study shows texting in class hinders learning

Students who text in class are less attentive and demonstrate lower grades.

Researchers from the National Communication Association found that students who text in class were less attentive and demonstrated lower grades.

The researchers also found that students who text in class were less likely to stay on task.

The study, which will appear in the July 2012 issue of The Daily Texan, University of Texas, said, "We're moving away from the single gene inheritance model of disorders or the idea that only a few genes cause the effect. Now and then, there are many genes in the biological pathways."
Did you know?
The University student body, composed of more than 20,000 students, represents all 50 states and about 70 foreign nations.
